	Approved: Chief Christopher J. Reynolds	Initiated: January 2022 Revised: N/A

Informed Consent for Tuberculosis (TB) Screening Test

I have attended an education session on Tuberculosis. This session included information regarding the Mantoux skin test with is used to determine whether the Tuberculosis organism is present in the body.

I have had the opportunity to ask questions and they have been answered to my satisfaction. I believe that I understand the risks and benefits associated with Mantoux skin testing and I hereby give consent to this testing.
